Relevant Experience

Frontend Developer | (Side Project) July 2024 – Present

- Developed a modern web application using React, Next.js and TypeScript, leveraging Node.js for server-side functionality, static site generation and server-side rendering to enhance performance and SEO.
- Built scalable, reusable React components, integrated RESTful APIs within Next.js to deliver a responsive, accessible user interface, implemented GSAP animation for smooth, engaging user experiences, and utilized Tailwind CSS for efficient styling.
- Ensured high code quality and maintainability by employing ESLint and Prettier, and collaborated via Figma to implement best practices in accessibility and overall application robustness.

Senior Frontend Developer | First Republic Bank Mar 2017 – July 2024

- Developed and deployed responsive websites using HTML5, CSS3, SASS, JavaScript, jQuery, and Foundation, ensuring cross-browser compatibility and seamless user experiences.
- Implemented Jest for unit testing, ESLint and Prettier for code quality, and optimized module bundling with Webpack to maintain efficient, maintainable codebases.
- Collaborated with back-end developers, UX designers, and content writers to integrate front-end components with APIs and ensure ADA-compliant, accessible content.
- Designed and built reusable UI components and conducted thorough code reviews to enhance code efficiency, maintainability, and alignment with design specifications.
- Managed Git repositories to streamline development processes and configured Tealium analytics to track visitor behavior while maintaining brand consistency.

Frontend Developer | Kabam Inc Sept 2015 – Feb 2017

- Recreated and enhanced a corporate website using WordPress with Gulp, Sass, Compass, jQuery, JavaScript, HTML5, CSS3, Bootstrap, JSON, and Ajax, ensuring a high-performance, responsive codebase.
- Customized themes and plugins to feature multimedia galleries, integrated JobVite JSON data via PHP, and refactored CSS architecture for improved reusability.
- Designed responsive UI layouts and collaborated with stakeholders to translate user needs into detailed project designs.

Frontend Developer | Western Union Dec 2012 – July 2014

- Developed mobile simulation prototypes using AngularJS, Sass, Compass, jQuery, JavaScript, HTML5, CSS3, Bootstrap, JSON, and Ajax while optimizing CSS for faster load times.
- Converted online money transfer platforms into an advanced front-end structure using a custom MVC framework, Adobe CQ5, and Adobe DTM for dynamic tagging.
- Implemented Ajax/JSON web service calls for fetching currencies and fees and collaborated in Agile Scrum processes to ensure cross-browser compatibility.

Skills

Programming Languages
JavaScript (ES6), HTML5, CSS3, Sass, Ajax, JSON, PHP, TypeScript

Libraries & Frameworks
React, Next.js, jQuery, Node.js, Bootstrap, Foundation, Tailwind CSS, Jest

Tools & Platforms
Git, GitHub, WordPress, ESLint, Prettier, Webpack, npm, Figma, Sketch, InVision Photoshop, Illustration, Adobe Tealium

Education

Academy of Art University
Master of Arts | Web Design & New Media

Chaoyang University of Technology (Taiwan)
Bachelor of Science | Information Management

Certification

Sitecore 9 Developer Certification
Content Management System by Oct. 23, 2021
